Skills

Languages: JavaScript, HTML5, CSS3, SQL, Python, Java

Frameworks: React, React Native, AngularJS, Angular, Node/Express, Bootstrap, Spring Boot

Relevant Experience

FreeLance Front End Developer

January 2018 - Present

Developed for internal use for the Mississippi Gaming Commission Tunica Office:

- Active Cases: Developed a React app to track status changes to a case in a portfolio of cases
- Agent-pedia: Used AngularJS, Node/Express, and Heroku to deploy a field guide for agents
- Chasing the 10 Pound Monster: Weight loss contest app built with AngularJS, HTML, CSS, Node/Express, MongoDB, and Bootstrap for an office wellness program

Software created for Code Connector (Nonprofit tech organization):

- Level Up Dev: React Native mobile app focused on helping developers guide their learning path.
- Code Connector Chrome Extension: React web app that displays upcoming tech meetups.
- Code Connector Question Submission: React web app for submitting discussion questions.

Software developed for VEVA (startup):

- Veva.ai: React Chrome extension where users take a short assessment test to get a tailored list of resources to help them learn a topic. The goal is to make learning online less overwhelming.

Edge Motors Museum & Baby Grand Design Studio / React Native Developer

April 2019

- Created an android app based kiosk interface that displays car photos to vintage car museum visitors. React Native, JavaScript, HTML, CSS, Adobe Photoshop, XD wireframes
- The app passed the initial stress test of 700 patrons on the grand opening day. The app is still in use today and has had one upgrade.

Launch-Code / Teacher Assistant

January 2019 - September 2019

- Assisted the instructor in teaching Java, Python, SQL, Java Spring, web development (MVC, Flask), HTML, CSS, basic command line, version control, and object oriented programming

Professional Experience

Mississippi Gaming Commission / Gaming Enforcement Agent Level V

July 2007 - PRESENT

- Enforce Mississippi's casino gaming regulations and criminal laws

Education

University of Mississippi / Bachelor's Degree in Management Information System

August 2001 - May 2004, Oxford

Community Involvement

Code-Connector: Nonprofit tech organization that helps connect local developers with coding and career resources.

- National Leadership team: Online Community Manager
- Memphis Chapter Leader & North Mississippi Chapter Co-founder

Google Developer Group: A tech meetup for developers who are interested in Google's developer technology. Volunteer for the Memphis GDG chapter.

Hack-Memphis 2018: Collaborated with a small team to build a web app (Posey) in a single weekend. A video recording app that uses machine learning to compare a picture of a person posing to the user's pose.

Give-Camp 2019 Hackathon: Collaborated with a small team to build a WordPress website for a non-profit . <https://www.sweetcheeksdiaperministry.org/>.

Smart City Hackathon 2019: Collaborated with a small team to build a mobile app (LookOut) in a single weekend. The objective was to warn drivers of approaching EMS vehicles. While the project wasn't a success, we experimented with React Native for app development and MIT app inventor to demo the app.

Meetups: Dev-Memphis, Memphis Web Workers, Code Connector's Memphis and North MS meetups

Tech Conferences: SQLSaturday Memphis 2019, Changing the Color of Tech Memphis 2019, Free Code Camp Lockdown Conf 2020, Magnolia.js 2020
